GROVE / 01 — THE IDENTITY

Good ideas. Room to grow.

A private notebook for your ideas, journal and connected context. Write, organize, search by meaning and see how your notes connect.

The signature

Use the complete file, including its built-in clear space.

19 / Sprout. The selected two-leaf sprout and unchanged uppercase GROVE outlines.

- Use the horizontal lockup when the name needs to read at a glance. Use the symbol for small avatars and application icons.
- Keep the supplied proportions and internal spacing. The lettering is an outlined signature.
- Keep at least one quarter of the visible symbol height clear around new placements. Retain the larger built-in export padding.
- Use the reversed artwork on a dark field. Keep the mark clear of busy photography.

Signature palette

Paper	Signature	Ink	Support
#FAF9F3	#284C38	#284C38	#C7DF9E

Start with Forest. Six coordinated colourways plus black and white are supplied. Each colourway includes logos, avatars and icons.

Space Grotesk + JetBrains Mono

Your ideas.
Room to grow.

A thought, a plan, a little thing worth keeping. Bring them together in your private notebook and see how your ideas connect.

Use Space Grotesk 600 for headlines, 500 for section titles and navigation, and 400 for body copy. Reserve JetBrains Mono 400–500 for code and structured metadata.

Keep sentences in natural case. Use uppercase sparingly for small category labels.

THE BRAND IN ONE SENTENCE

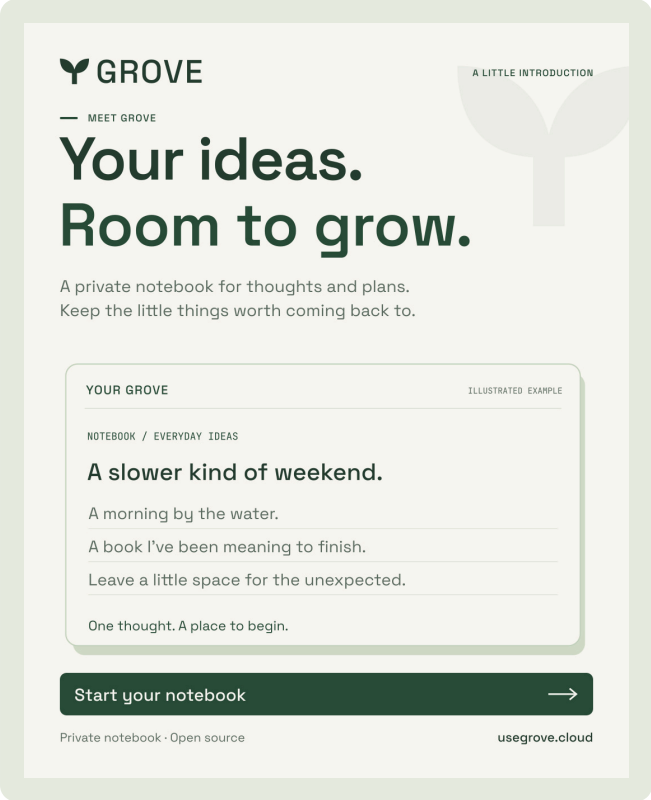

Thoughtful, human and concrete. Lead with the idea worth keeping. Use technical language in the agent-context sequence.

PRODUCT & CAMPAIGN CONTEXT

Notebook signup: /sign-up. Connected-agent setup: /install. Current storage is PostgreSQL/pgvector; provider and model choices vary by deployment.

GROVE / 02 — IN PRACTICE

One idea. Clearly expressed.

INSTAGRAM / 1080 × 1350 / FINISHED EXAMPLE

Build the composition

1. **Identify.** Give the supplied signature a quiet, uncluttered position.
2. **Lead.** Use a short headline in Space Grotesk. Break at a natural phrase, with one thought per line.
3. **Show.** Use private notebook pages, journal fragments and clearly related notes. Keep diagrams calm and label illustrated workflows.
4. **Invite.** Use "Start your notebook" and **usegrove.cloud**. Keep supporting copy subordinate to the headline.

A focused thought, one notebook or connection illustration and a start-your-notebook action.

The social sequence

- **Make room for your ideas**
  Three standalone introductions.
- **From a thought to a notebook**
  Publish parts 01 → 02 → 03.
- **Context that comes with you**
  Publish parts 01 → 02 → 03.

Each sequence has Instagram, X and TikTok photo adaptations. Keep the matching caption and alt text with the chosen image.

WRITE LIKE THIS

"Your ideas. Room to grow."

REPLACE VAGUE OR INACCURATE COPY

"Grove automatically remembers everything." → choose a concrete, supported benefit.

Use the original exports at their supplied dimensions. Maintain readable contrast and preserve the vertical safe area. For editable work, use the SVG master and licensed brand fonts.
